

Gator Tail

A black and white photograph of a man with a beard, wearing a beanie with a logo and camouflage clothing, driving a boat through a narrow channel. The boat is surrounded by dense vegetation and trees. The background is slightly blurred, suggesting motion. A large, dark green diagonal overlay covers the left side of the image.

GATOR-TAIL MOTORS

SETTING THE STANDARD

Gator Tail, the original belt-driven surface drive engine, is the one that changed the game. From a research project in college, this technological marvel has grown to drive the market in a little over a decade. The next decade has begun with the evolution of our 37 and 25 EFI engines. These engines will prove to be the most reliable way to get you places you never thought possible.

GATOR-TAIL MOTOR OPTIONS

- E.S.T. TRANSMISSION
- STEERING READY
- 21" TALL TRANSOM
- NATURAL GEAR CAMO
- GATOR GRASS CAMO
- BLACK

MOTOR

DUCKS UNLIMITED WELCOMES US AS A NEW CORPORATE PARTNER.

In 2015, Gator-Tail will offer a 25 horsepower Ducks Unlimited edition featuring a blacked out color and matte finish. Each motor will be assigned a limited edition serial number stamped on a stainless steel plate resembling a waterfowl band on the side of the belt-housing.

THE SALE OF EACH UNIT ALLOWS US TO MAKE A SIGNIFICANT IMPACT ON

WATERFOWL CONSERVATION

“ We’re excited to work on this project with Gator-Tail. Mud motors are growing in popularity with waterfowl hunters, and DU is fortunate to have the opportunity to capitalize on this momentum with one of the biggest names in the industry. ”

JEREMY SMITH DUCKS UNLIMITED
DIRECTOR OF CORPORATE RELATIONS

“ Obtaining the DU license was very important as it allows us to make a significant impact on waterfowl conservation with the sale of each unit. Ducks Unlimited’s membership and support base consists of avid sportsmen and waterfowlers who rely on quality gear and equipment in the field. Our products will certainly live up to their expectations. ”

KYLE BROUSSARD GATOR-TAIL
OWNER

GATOR-TAIL

BOATS

Gator-Tail invented, manufactured and perfected the best surface drive engine on the market today. The only logical next step was to design a line of boats that would allow our engines to deliver the full spectrum of performance we envisioned. That is why we now offer a complete line of boats specifically engineered to partner with our engines to deliver the perfect outdoor package that works for you.

With our complete on-site design, fabrication and production, Gator Tail can build the most important boat in the world, *yours*.

Looking for the perfect duck blind? Look no further than right here! Gator-Tail has several blind options to choose from. We offer a great removable folding fast grass blind that's light weight and can be deployed in seconds. Gator-Tail also offers our custom floating duck blind called the Quack House as well as custom hard sided blinds built for your hunting needs. Gator-Tail has the blind for you.

**JIM RONQUEST
RNT-V
STUTTGART // ARKANSAS**

“I’ve come to rely daily on Gator Tail Outboards. They allow us to travel places we used to have to pull the boat, they are agile through flooded woods and best of all, you don’t have to worry about water pumps clogging or breaking gears in lower units, that and the folks that build ‘em are top shelf people! You will not go wrong with a Gator Tail!

**JUNIOR & WILLIE EDWARDS
FISHERMEN
BAYOU SORREL // LOUISIANA**

“Twenty-five years ago if we would have had a Gator-Tail we would have made a fortune crawfishing. This thing will get you in some shallow water where you couldn’t get to where we fish with an outboard. You pull up to your traps and hit the reverse to get right up against your trap and it saves quite a bit of time in a day’s work. Anywhere you could go in a pirogue you could go with this. You can get into some pretty tight places. This is a pretty damn good motor that’s hard to beat I can tell you that.”

**GROSSE SAVANNE
WATERFOWL & WILDLIFE LODGE
LAKE CHARLES // LOUISIANA**

“It is very important to have the most efficient yet reliable equipment on the market to get our guests to and from numerous blinds and fishing holes through the shallow marshes within the properties around the lodge. In most cases, the only way to go is with the Gator-Tail outboards. As Grosse Savanne’s marshes continue to heal from Hurricanes Rita and Ike, it’s becoming more difficult to run through dense vegetation with traditional outboards. These motors have definitely become the best way to run around the marshes of South Louisiana.”

**CAPT. MARTY LACOSTE
ABSOLUTE FISHING CHARTERS
DULARGE // LOUISIANA**

“I rely on my Gator Tail for my business, being a guide I need a reliable “Work Horse” I can trust. The Gator-Tail does everything I need for duck hunting, bow fishing, and shallow water fishing for reds. The Gator-Tail is unstoppable in the shallows and mud and I would recommend it to anyone in the market for a mud boat.”

**MIKE DETRAZ JR.
JAM HUNTING
MEXICO & CENTRAL AMERICA**

“Gator-Tail performs great in all types of terrain and really shines in vegetation and performs well in open water”. We use our Gator-Tail for hunting and fishing in Central America and it’s the perfect all around, year round boat for us. It gets us there and back and our clients are happy thanks in part to Gator-Tail!”

**BLAKE SOILEAU
FULL STRAP + STRINGER
JONESVILLE // LOUISIANA**

“Amazing product. Our guides rely on your motors everyday and without fail they deliver reliability and dependability each time. The service and warranty departments have treated us professionally as well. Thanks again to our partners at Gator Tail for allowing us to provide a level of service to our clients that is unmatched anywhere in the waterfowl outfitting business.”

OUR STORY

Based in Loreauville, Louisiana, Gator-Tail Outboards is the vision of Kyle Broussard. While finishing his degree in Mechanical Engineering at the University of Louisiana, the concept for Gator-Tail Outboards was born. This unique, patented design was the first of its kind to hit the market. Gator-Tail Outboards is in a class of it's own when it comes to on-site fabrication and production.

Gatortail can provide the highest quality products at very competitive prices. All design work is conducted by our highly skilled CAD/CAM engineering team. We operate a fully equipped CNC machine shop and employ highly skilled and talented personnel.

All of these factors make Gator-Tail Outboards the obvious choice when purchasing a shallow-water outboard for your work, sporting or pleasure needs.

WHAT MAKES US THE BEST?

OUR CUSTOMERS.

Gator-Tail gives each and every customer the total package from start, to finish, to follow-up. Our motors are CAD/CAM designed, CNC machined, assembled and wired by our team members who have years of marine experience. Once built, our motors are professionally prepped and painted to customer specs. Gator-Tail boats are built in our state of the art welding facility utilizing pulse welding technology. When the fabrication process is completed, our boats are rigged by our professional rigging team. Our service department is second to none in the industry and we stand behind every product we sell because that's what has brought us to the top.

THANK YOU

We at Gator-Tail know that being thankful to the people who put us where we are is paramount to our success. It's the customers far and wide, from all over the globe who have placed their hard earned money down and took the chance with us, and for that we are extremely thankful.

We also thank all of our dedicated team members who work tirelessly to keep production up and help to make Gator-Tail the best by always delivering their best day in and day out. Thanks for viewing our brochure. Please visit our website for the most up to date info on all of our products.
